ASSURE® PLUS

ASSURE® PLUS UNIDOSE CAPSULES

ASSURE® PLUS

6 ml Assure® Plus All Surface Bonding Resin	#PLUS
2 ml Assure® Plus All Surface Bonding Resin	#PLUS2ML
50 Pack Assure® Plus 0.20 ml Unidose (10 ml)	#UAP50

4 out of 5 orthodontists use Assure Plus as their self-etch or total-etch primer.

THE MOST VERSATILE RESIN EVER DEVELOPED

- Enhances bond strength on all surfaces
- Tolerates moisture contamination
- Primes and conditions any tooth surface for bonding
- Effective on any enamel type
- Effective on any artificial substrate
- Eliminates hydrofluoric acid with porcelain crowns

CLINICAL APPLICATIONS

- Normal or atypical enamel
- Dentin or cementum
- Eliminates additional conditioners with
 - Stainless
 - Amalgam
 - Gold
 - Composite
 - Acrylic
 - Pontics
- Eliminates hydrofluoric acid application with
 - Porcelain*
 - Lithium Disilicate
 - Zirconia

PLAQUE VISIBLE AT DEBOND

PLAQUE REMOVAL WITH POLISHING AT DEBOND

Pro Seal prevented plaque and tartar developing into decal by protecting the enamel integrity.

I swear by ProSeal to protect my patients' teeth from white spot lesions. The peace of mind it provides is truly invaluable!
- Michael K. DeLuke, DDS, MDS

Light Cure Bracket Adhesives

PUSH SYRINGE

PUSH SYRINGE TIPS

NEWLY DEVELOPED - SUPERIOR WORKING PROPERTIES

- Proven bond strength and consistency
- Unique viscosity easily penetrates bracket pads
- No bracket drift – stays in place until cured
- New proprietary microfiller construction
- One-piece flash removal – "ropes" off bracket periphery
- Translucent finish matches any tooth shade
- Maximum bond strength
- Easy removal and cleanup
- UV disclosing agent – fluoresces on the tooth under black light

CLINICAL APPLICATIONS

- Bracket and tube bonding
- Fixed lingual retainer bonding
- Bonds all metal, ceramic and composite attachments
- Reliamold compatible (see Reliamolds on page 29)
- Clear aligner attachment material
 - Viscous to allow for preloading of trays

GO TO®

Light Cure Bracket Adhesives

Multi-Purpose Composite

TKO is a versatile composite with strength and a low modulus of elasticity. TKO composite paste is effective in both laboratory and chairside applications.

ONLY FROM  RELIANCE®

Proprietary Working Properties for Specific Applications

CURES STRONG AND SMOOTH WITH MODEST PLIABILITY

- Resists Opposing enamel wear
- Soft cure resin matrix for patient comfort

VISCOSITY PERFECTED FOR VARIED APPLICATIONS

- Controlled needle tip dispensing
- Flexes and recovers with acrylic appliances

PINK SHADE

- Aids in placement, removal and clean up
- Matches acrylic appliances

Bonding Posterior Occlusal Buildups Available at RelianceU.tech

 **LIGHT BOND™**
LIGHT CURE BRACKET ADHESIVE

PUSH SYRINGE

SYRINGE TIPS

TIME TESTED PERFORMANCE

- Unrivaled bond strength
- Highly filled paste
- Smooth tacky viscosity
- Consistent successful bonds
- Easy flash and debonding cleanup
- Designed for Doctor or staff bracket placement without drift

CLINICAL APPLICATIONS

- Routine bracket and tube bonding
- Intraoral bonding of metal, ceramic or composite attachments
- Indirect bonding to stone/resin models

LIGHT BOND™	SYRINGE	TIPS
Regular Viscosity Syringe*	#LBPPF	#LBPTF
Medium Viscosity Syringe	#LBMPPF	#LBMPTF
Thin Viscosity Syringe	#LBTPPF	#LBTPTF

4.5g Pad Lock® Paste in Tips with Fluoride	#PLTF

BONDS CHEMICALLY AND MECHANICALLY

- Bonds chemically to metal bases
- Paste fluoresces under black light for flash and debonding cleanup

CLINICAL APPLICATIONS

- Metal bracket and tube bonds
- Indicated for fine grade mesh bases
- Non-Fluoride upon request

Chemical Cure Adhesives

PHASE II® MIX PASTE BRACKET ADHESIVE – CHEMICAL CURE

SCREW SYRINGE PASTE A & B

PASTE A

PASTE B

TIME TESTED CONSISTENCY

- Microfilled paste
 - Unrivaled strength
 - Smooth, tacky viscosity
 - No bracket drift
- Self curing
 - Full polymerization
 - A&B mix system
 - 3 minute working time
- Easy removal and cleanup
- Contains Fluoride

CLINICAL APPLICATIONS

- Routine clinical bonding
- Bracket and tube bonding

PHASE II® DUAL CURE MIX PASTE BRACKET ADHESIVE – COMBINES CHEMICAL AND LIGHT CURING

SCREW SYRINGE PASTE A & B

PASTE A

PASTE B

SPEED OF LIGHT CURE / SECURITY OF CHEMICAL CURE

- Initial light cure option
 - 10 second exposure tacks bracket in position
 - Allows quick and accurate positioning
- Chemical cure - time activated
 - 4 minute working time
 - Total polymerization under bases
- Contains Fluoride

PHASE II® & PHASE II® DUAL CURE

PASTE COMPONENTS

Paste A 6g Syringe	#1PSAF
Paste B 6g Syringe	#1PSB
Paste A 18g Jar	#PJAF
Paste B 18g Jar	#PJB
Dual Cure Paste A 6g Syringe	#1DCSAF

14g Paste In Jar	#RPJ
16g Primer	#RPRF

* All components available w/o Fluoride on request

1 STEP / CONTACT ADHESIVE

- 25 second working time
- Chemical cure - no light required
- Saves time and material
 - No Mixing
 - Minimizes adhesive per bond
- Highly filled paste
 - Increased bond strength
 - Tacky viscosity
 - Prevents bracket drift
- Choice of packaging
 - Push syringe
 - Syringe tips
 - Jars
- Contains Fluoride

Specialty Procedures

REVOLUTIONIZES IMPACTED EXTRUSION PROTOCOLS

- Unparalleled Strength
 - The C&C™ System does not use protruding metal attachments. Our patent pending design molds a base with composite – adapting flush to any palatal or buccal exposure.
- Painless Removal
 - Instead of painfully breaking a bracket off a mobile tooth – the C&C™ is ground down with a bur – resulting in less patient discomfort.

RECOMMENDED PRIMER WITH C&C™

Assure® Plus (Page 3)

Bond Aligner

BOND ALIGNER®

1.4 g Bond Aligner®
Syringe With 5 Tips

#BA

Button Hook Attachment

#ABUT

Bonds Hooks and Buttons to Clear Aligners

NO SURFACE CONDITIONING REQUIRED.

- Will bond any button or hook to clear aligner materials - Essix, Invisalign, Invisalign Smart Track Bioplast, Tru-Tain, and more!
- Bonds to aligners without plastic preparation, primers, or conditioners.
- A clear, light-cure paste for excellent aesthetics.
- Low modulus of elasticity - Bond Aligner® flexes with thermoformed plastic trays and will not crack or separate.

Simple Application

1. Apply Bond Aligner to bonding base.

2. Deliver and position.

3. Light cure.

Reliance Orthodontic Products: Over 40 Years of Serving the Orthodontic Profession.

Bonded aligner.

Bonding to the tray allows for wider clear-aligner treatment modalities

Band/Appliance Cements

PUSH SYRINGE

ALSO AVAILABLE IN LUER LOC SYRINGE

INDUSTRY LEADER IN BAND CEMENT

- Single Paste System
- Light Activated
- Resin base glass ionomer
 - High Fluoride release
- Natural or blue shade
- All purpose cement
 - Ultra Band-Lok® can also be used to bond large acrylic appliances and as an occlusal build-up material.
- Bonds to metal
 - Ultra Band-Lok® will bond chemically to stainless steel bands. Removal is all in one piece with cement in the appliance, making cleanup effortless.

CLINICAL APPLICATIONS

- Band cementation
- Occlusal build ups
 - Occlusal buildup instructional video available at RelianceU.tech
- Acrylic appliances - Hyrax, MARA, RPE, etc.
 - Acrylic Appliance instructional video available at RelianceU.tech
- Lab block out material
- Non-Fluoride upon request

Bonding to Various Artificial Substrates
Available at RelianceU.tech

- * Etchmaster Handpiece Starter kit includes
 - 4 Hole Handpiece Attachment
 - (5) Regular Small aluminum Oxide Tips
 - (5) Lingual Small aluminum Oxide Tips
- * Recommended for removing composite from bracket bases and microetching stainless steel appliances. Not recommended for use on enamel.

REGULAR TIPS

LINGUAL TIPS

MICROETCHING MADE CLEAN AND EFFICIENT

- Precise surface microetching
 - Increases surface retention
 - Insures properly prepped surface
 - Maximizes bond strength on all surfaces
- 4 Hole Handpiece
 - Standard airline attachment
 - Easy chairside engagement
 - Stainless steel construction
- Preloaded cartridge tips
 - Disposable, no-mess application
 - No aluminum oxide management
 - 50 micron aluminum oxide
 - 2 tip sizes Small (6 teeth) or Large (18 teeth)

CLINICAL APPLICATIONS

- Lingual bonding
- Artificial substrate bonding
- Molar prep for bonds or bands

ASK®

ASK® Kit

#ASK

One Kit All Surfaces

The new **ASK™** (All Surface Kit) from Reliance Orthodontics is all you need to bond to any intraoral surface:

- ✓ Composite
- ✓ Enamel
- ✓ Porcelain
- ✓ Zirconia
- ✓ Metal

- ✓ Reduce your bonding & inventory costs!

Tooth Preparation

USEP®

ONE STEP ETCHANT AND PRIMER

- Combines preparatory etching and priming into one simple step
- Effective and efficient tooth prep
- Reduces chairtime
- Single liquid application – No mixing
 - Scrub onto enamel for 5 seconds
 - Air Dry
 - Apply Assure Plus
 - Air dry
 - Deliver bracket and cure
- Effective for all enamel surfaces
 - Bracket and Tube bonding
 - Buildups
 - Increasing band cement retention
 - Reliamold delivery

INCREASE ANY S.E.P. STRENGTH WITH ASSURE PLUS

Lingual Retention

ORTHO FLEXTECH® **FLEXIBLE LINGUAL RETAINER** STAINLESS STEEL OR WHITE GOLD

PATENTED

A NEW GENERATION IN FIXED RETENTION

- Secure and stable long term passive retention
- Patented interlocking chain design
- Adapts to lingual anatomy
 - No bending or burnishing
- No models or impressions
- Flexes interproximally
 - Resists breakage and bond failures
- No reciprocal forces – allows for minor biological movement – will not take an active bend
- Stainless steel offers increased tensile and torsional strength
- Different material choices
 - White Gold (original)
 - Nickel Free Gold
 - Nickel Free Gold – etched
 - Stainless Steel – increased strength
- Low profile – patient comfort

CLINICAL APPLICATIONS

- 3 to 3 retention
- Periodontal splinting

ORTH FLEXTECH®

RETAINIUM® XL

Retainium XL – (10) 6" Wires

#XLRET

FIXED RETENTION WITH TITANIUM MOLYBDENUM

- Flat .027" x .016" ribbon arch
- Low profile – comfortable and functional
- Increased strength
- MRI compatible
- Easy adaptation
- Nickel free titanium construction

CLINICAL APPLICATIONS

- Fixed lingual retention
- Diastema maintenance
- Space maintenance
- Splinting

RETAINIUM®
ORIGINAL TM ALLOY
RETAINER WIRE

LINGUAL TITANIUM MOLYBDENUM RETENTION

- Low profile
- .027" x .011" ribbon arch
- Adaptable
- Flexes Interproximally
- Nickel free
- MRI compatible

CLINICAL APPLICATIONS

- Fixed lingual retention

BOND-A-BRAID®
LINGUAL RETAINER WIRE

CLOSE AND ACCURATE ANATOMICAL ADAPTATION

- The dead soft wire easily adapts and is excellent for semi-permanent orthodontic splinting of the upper and lower incisors, diastema maintenance and other tooth splinting
 - Lingual retainer
 - .027" x .011" ribbon arch wire
 - 8-strand braided wire
 - Dead soft – adapts easily

Restorative Solutions

PERFECT-A-SMILE® PONTIC PAINT IMMEDIATE RESTORATIONS AND SPACE MAINTENANCE

QUICK AND ECONOMICAL AESTHETIC SOLUTION

- Light cure paste in 10 shades
- Applies smoothly to clear aligner sockets
- Translucent to match enamel
- High elasticity modulus
- Will not crack or splinter
- Bonds to any clear aligner
- Quick and economical
- Same day fix
- No doctor chairtime
- No lab fees or delays
- Complete in-office system
- Easy temporary bridge

CLINICAL APPLICATIONS

- Eliminates flippers
- Temporary restorations
 - Congenital, trauma
 - Pre-pontic, peg laterals
 - Grafting, implants
- Space maintenance
- Aesthetic restorations
 - Single tooth
 - Partial arch

PERFECT-A-SMILE® PONTIC PUTTY LIGHT CURE FORMABLE PASTE

FINGERTIP PONTIC FABRICATION

- Light cure composite paste
- Putty-like consistency
- Facilitates tooth shape formation
- Eliminates pontics, wax & PVS
- Bonds tenaciously to stone/resin models
- Provides proper clear aligner anatomy

CLINICAL APPLICATIONS

- Pontic formation by hand
- Bridges/fills gaps in model
- Facilitates proper aligner formation

MOLDS MAY BE DELIVERED WITH BONDER HANDLE (#BHA) OR ANY HEMOSTAT.

Mold Composite Auxiliaries Directly on Teeth

EASY, EFFECTIVE & ECONOMICAL

- Molds are translucent and flexible to facilitate composite loading, curing, and disengagement.
- A mold is filled with a light cure composite (Go To, TKO, or Flowtain recommended) then delivered to the tooth and cured.
- The desired auxiliary is delivered, formed, and functional immediately.
- Value priced to be single-use disposable.

EASY-TO-USE
PRECISION MOLDS

THEN CURE

DIFFERENT MOLDS FOR DIFFERENT APPLICATIONS

ONLY FROM  **RELIANCE®**

HABIT CONTROL

Inhibits thumbsucking and tongue thrust tendencies.

Habit control #RMH

CUSPID RAMP

Bite opening ramp applied to the cuspid—5.0 mm.

Cuspid ramp #RMC

BUTTON

Low profile and smooth. Facilitates elastomeric or ligature engagement.

Button #RMBU

MOLAR TUBE

Molds a temporary tube. Accepts wire up to 020.

Molar Tube #RMT

MOLAR PAD

Open the bite with posterior occlusal buildups. TKO or Ultra Band Lok recommended.

Molar Pad #RMMP

BITE RAMP

Bite opening turbo formed on the lingual of upper incisors. 2 sizes—3.0 mm or 5.0 mm.

Bite ramp 3mm #RMBR3
Bite ramp 5mm #RMBR5

WIRE HOLDER

Bonds lingual retainers or other wires consistently with a smooth and low profile finish. 2 sizes—3.0 mm or 4.5 mm.

Wire bonder large #RMWBL
Wire bonder small #RMWBS

Relastics

A New Standard of Consistency in Intraoral Forces

Reliance, the name you trust in bonding, has researched materials and manufacturing processes to develop a precision line of patient elastics. The result is unprecedented consistency and accuracy in forces as prescribed.

Relastics Only From Reliance

- 5 sizes and 4 forces provide the treatment choices for any applied mechanics
- Manufactured from surgical grade latex
- Thickness and diameters guaranteed accurate
- Precision manufacturing techniques and in-process testing assure force accuracy
- Force values determined at 3 times extension from passive diameter
- Patient pack ID marks are familiar and concise
 - Letters designate size
 - Colors designate force
- Light retardant packaging to eliminate UV degradation
- Resealable and tamper-proof patient packs
- 3-year shelf life

- ✓ Reliance Orthodontic Products Over 40 Years of Serving the Orthodontic Profession.

Custom Base Indirect Bonding

MODEL ADHESIVES

- Tacky paste viscosity
- Unlimited working time
- Heat curable
- Highly filled composite

- Viscous to resist drift on resin and stone models
- Extended working time to allow bracket manipulation
- Single-piece flash clean-up

THERMA-CURE™	
5g Therma-Cure™ Syringe	#TC
GO TO®	
4g Paste Syringe	#GTP
4g Paste In Tips (10 Tips)	#GTT

TRANSFER ADHESIVES

- Needle Tip Dispenser
 - Using the tips provided, these materials are easily injected onto custom pads
- Low modulus of elasticity to resist breakage
- Highly filled to bridge gaps between custom pads and tooth surface

- 90-Second working time
- Excellent molecular conversion rate
- Self-curing

FLOWTAIN™	
1.5g Flowtain™ with Tips	#FT
19 gauge Tips (10)	#19TIPS10
MAXIMUM CURE® SEALANT	
7g Maximum Cure® Sealant A with Fluoride	#MC7AF
7g Maximum Cure® Sealant B	#MC7B
7g Maximum Cure® Filled Sealant A with Fluoride	#MCF7AF
7g Maximum Cure® Filled Sealant B	#MCFSB
20g Maximum Cure® Sealant A with Fluoride	#MC20AF
20g Maximum Cure® Sealant B	#MC20B

Clean Base IDB Adhesives

#1 OPTION FOR DIGITALLY GUIDED PROCESS

L.C.R.™
HYBRID FLOWABLE IDB ADHESIVE

L.C.R.™	
5g L.C.R.™ Paste in Push Syringe	#LCR
1.5g L.C.R.™ Paste in Push Syringe w/ Tips	#LCR15
5g L.C.R.™ Paste in Tips (11)	##LCRT5

L.C.R.™

- Hybrid flowable consistency allows for instant bracket mesh penetration
- Resin matrix holding capacity allows for preloading up to 7 days in advance
- Micro+ nano fill for flowable consistency with durability of highly filled composite

GO TO®
LIGHT CURE BRACKET ADHESIVE

GO TO®	
4g Paste Syringe	#GTP
4g Paste In Tips (10 Tips)	#GTT

GO TO®

- Perfect viscosity to allow bracket mesh penetration in jigs
- Highly filled to provide ultimate strength
- Pre-loadable – allowing even shorter chair time prep
- Fluoresces for easy removal

EXCEL®
CHEMICAL CURE SPECIALTY ADHESIVE

EXCEL®	
Excel® Regular Paste A in 6g Screw Syringe with Fluoride	#1ERSAF
Excel® Regular Paste B in 6g Screw Syringe	#1ERSB
Excel Regular Paste A in 12g Jar with Fluoride	#ERJAH
Excel Regular Paste B in 12g Jar with Fluoride	#ERJB

EXCEL® PASTE A AND B

- Unsurpassed bond strength
- Thin, creamy consistency
- Facilitates clean base penetration
- Three minute working time
- Contains fluoride

* Excel® Paste available w/o Fluoride on request

Terms & Conditions

ORDERING

To order Reliance Orthodontic Products, simply contact our home office Toll-Free (in U.S. and Canada) at 1-800-323-4348 or 1-630-773-4009. You can also order through our secure website at www.RelianceOrthodontics.com. **There is a minimum of \$25.00 on all orders.**

SHIPPING

All prices are F.O.B. Itasca and are shipped via FedEx. All shipping is billed with the order. Alternate shipping services are available. Please call for more information.

EXPORT

Export orders must be paid for in advance by proforma invoice.

TERMS

Net 30 days. Illinois residents please add 1.75% sales tax. An invoice is enclosed with each shipment and payment should be made from this invoice. Any outstanding balance will be subject to a finance charge of 1.5% per month. All payments are due in U.S. funds.

EXCHANGES OR REFUNDS

Your satisfaction is Guaranteed! Reliance Orthodontic Products, Inc. guarantees that our products are of the highest quality and workmanship. If at any time prior to its expiration date your adhesive system fails to perform in a manner not consistent with the product, we will replace the remaining product with new material free of charge or issue a credit for the remaining product. Please check your order for accuracy. Any discrepancies must be reported to Reliance within 7 days. No refunds, credits, or replacement will be issued after 30 days unless the product is deemed defective by Reliance Orthodontic Products, Inc. Products that are being returned to Reliance Orthodontic Products, Inc. must have a prior Return Authorization Number (RMA). All products being returned for credit or replacement must be sent postage paid with a copy of your invoice and your RMA number clearly visible on the package, or the package will be refused by Reliance Orthodontic Products, Inc. A restocking fee may be applicable.
